About Me...

Hi, I'm Vanessa Cendales, and I live in Cali. I'm 37 years old and hold a degree in graphic design from the Jorge Tadeo Lozano University, which I completed in 2008. For over 12 years, I have been working in the field of design and layout, primarily focused on web languages.

My journey began as a Flash animator, specializing in multimedia and animation production. As part of the design process, I gradually became more involved with coding (specifically, ActionScript 2-3). However, when Flash was phased out of the market, I transitioned to more code-based languages. This shift required me to learn various tools, such as HTML, CSS, JavaScript (including React and Vue), and PHP, in order to bring my designs to life on screen. I also integrated version control with repositories like Git.

Skills

Skill	Level
Web Design	100%
Wordpress	90%
HTML	100%
CSS	90%
JavaScript	75%
React.js	70%
